

# Innovators in hygiene

EMEA Product Catalogue 2014

# ENVIRONMENTAL & SOCIAL POLICY

At Vectair we take our environmental and social responsibility seriously.

We are dedicated on our quest to design ethical, efficient, environmentally friendly and economically viable products.

All products are fully compliant with relevant EC Directives. Regular reviews and updates of our international policies and procedures ensure that we are not only fully compliant with worldwide government legislation, but go beyond the necessary standards required.

# ABOUT VECTAIR

## ABOUT VECTAIR SYSTEMS LTD

We are a privately owned UK manufacturer of “away from home” commercial hygiene products.

Established in 1988, Vectair now distributes to over 120 countries worldwide from our European Head Office in Basingstoke, Hampshire, UK.

In 2007 we opened Vectair Systems Inc. with Headquarters in Memphis, Tennessee to service the North American Market.

Vectair manufacture a world class range of co-ordinated dispensers and consumables for the washroom, including automatic air fresheners and toilet cleaning systems, air purifying machines, hand washing and sanitising dispensers, feminine hygiene products and baby changing stations.

*"We are technological innovators in the hygiene world. We take pride in the quality and design that is invested in our products. We want to make your lives easier, with systems that work for you. And we want to make sure that they last."*

**Paul Wonnacott**  
Managing Director & President

# A BREAKTHROUGH. PIEZO TECHNOLOGY

## VIBE® Aircare Dispenser with Piezo Technology

### AIRCARE. REDEFINED.

Vibe® is redefining the world of aircare. In fact, you might never look at an aircare system in the same way again.

The patented piezo technology that goes into Vibe® creates a far more efficient, more environmentally friendly and less expensive aircare system compared to conventional aerosols.

It's an aircare revolution, even if we do say so ourselves.

### TECHNOLOGY VIBE®

Using the latest technology, we wanted to design an aircare system that did not saturate a space with heavy concentrations of scent and environmentally unfriendly VOCs (volatile organic compounds), yet was highly effective.

Piezo technology makes this possible.

### EFFICIENCY VIBE®

Piezo technology allows for consistent fragrance from start to finish. Unlike heavier aerosol droplets which fall within minutes, the piezo micro particles are much smaller and lighter. Remaining airborne for many hours, the micro particles blend uniformly throughout an interior space without leaving surface deposits.

### GREEN VIBE®

Vibe® is highly effective at ultra low concentrations with no added VOCs or propellants.

### COST IN USE VIBE®

Vibe® has a lower cost in use than comparable fragrance systems; not only saving you money on the actual product, but also on shipping, storage and inventory. One Vibe® unit is equivalent to approximately 3 aerosol dispensers.

## COMPLETE CUSTOMISATION

### AIROMA® Automatic Fragrance Dispenser

Ensure your premises smell fresh and clean with the Airoma® automatic aerosol air freshener.

Airoma® automatically delivers small bursts of fragrance at specific intervals in order to keep malodours at bay.

The dispenser provides flexible and easy to use programming options, and can be set to complement your exact location conditions.

## HARNESSING NATURE'S POWER

### PROZONE® Automatic Ozone Generator

Prozone® ozone generator cleans and rejuvenates the air we breathe, refreshing the atmosphere and bringing outdoor freshness indoors.

In nature, ozone is produced by the action of high energy discharges in lightning on oxygen within the atmosphere. Prozone® recreates this natural process.

The ozone produced destroys harmful micro-organisms and breaks down malodour-causing compounds, therefore neutralising the unpleasant smells they produce.

#### PROZONEMARK2NP

Prozone® Generator Non Programmable

#### PROZONEMARK2

#### PROZFANA

Replacement Prozone® Fan

#### PROZWIPE

Prozone® Alcohol Wipe

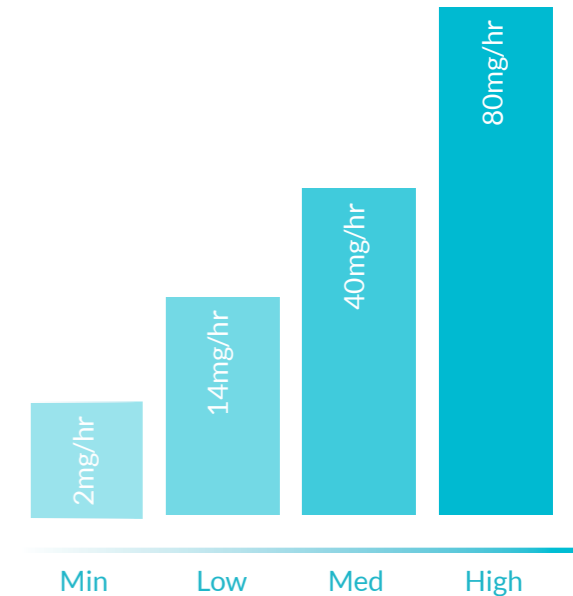

Approved by TÜV SÜD to the standard BS/EN60335 parts 1 and 2 - the first ever ozone generator to achieve this standard.

### PRODUCT SPECIFICATION

Dimensions	210mm(h) x 135mm(w) x 85mm(d)
Voltage	85V-264V 50/60 Hz
Power rating	12 watts
Capacity	Effective in room sizes up to 150m³
Material	Flame retardant ABS
Pack size	1 x unit per pack

### OZONE PRODUCTION

## NATURE FUSED WITH TECHNOLOGY

### OMNISCENT® Large Space Fragrance Unit

The Omniscent® large space fragrance delivery system provides continuous and consistent fragrance delivery to large interior spaces, creating a positive user experience in areas such as gyms, reception areas and hotels.

One unit will fragrance an area of up to 500m<sup>3</sup>.

OMNIGLDISP1UL  
Omniscent® Space Fragrance Unit

### OMNISCENT® Large Space Fragrance Refills

Unlike conventional aerosol fragrance systems, Omniscent® uses a solid ceramic block as the fragrance source.

The disposable block is gently heated within the unit and the fragrance is dispersed via an internal fan.

This gives large, uniform fragrance coverage from a single unit without the use of aerosols.

The range of Omniscent® fragrances are extensive and derived from wood, fruit, spices and flowers. Each fragrance block is 100% biodegradable. Bespoke and specific fragrances can be recreated when required.

#### PRODUCT SPECIFICATION

Dimensions	265mm(h) x 147mm(w) x 120mm(d)

ENVIRONMENTALLY  
FRIENDLY

## V-AIR® Non Aerosol Odour Control Dispenser

The V-Air® odour control system provides up to 60 days fragrance in a completely environmentally friendly manner, operating without the use of batteries or propellants.

A choice of high quality recyclable fragrance refills are available as standard.

An optional fan component is also available for areas with limited airflow and requiring extra fragrance delivery.

### VAIR-1W

V-Air® Odour Control System White

### VAIR-1F

V-Air® Optional Fan

## PRODUCT SPECIFICATION

Dimensions	182mm(h) x 72mm(w) x 70mm(d)
Operation	Operates on one alkaline "C" cell battery, with up to 6 month battery life (Optional fan)
Capacity	Up to 60 days
Pack size	1 x unit per pack

## V-AIR® Non Aerosol Odour Control Refills

V-Air® refills are non aerosol, propellant free and wick based, made from hydrophilic porous material.

Refills last up to 60 days. Refill cartridges are manufactured using recyclable material, further enhancing their green credentials.

V-Air® refills are designed to fit seamlessly into the V-Air® odour control dispenser and most other similar dispensers.

## PRODUCT CODES

**V-CART-ICE-COOL** Ice Cool  
**V-CART-TOUJOURS** Toujours

## ENVIRONMENTALLY FRIENDLY

### V-AIR® SOLID Multi-Phasing Technology

V-Air® SOLID is a multi-phasing, passive and solid fragrance cartridge that delivers consistent fragrance intensity, through timed release waves of different, powerful and effective fragrances, targeting fragrance fatigue in a revolutionary way, all from a single refill.

The cartridge comprises of a large ceramic block, impregnated with a powerful and effective fragrance, complete with an integrated fragrance gel core.

V-Air® SOLID refills are designed to work seamlessly in the Vectair V-Air® passive deodoriser system and other similar passive dispensers (allowing you to upgrade your fragrance performance).

Because there is no liquid, there will be no leaks and no hazards, and the refill is completely biodegradable and environmentally friendly.

### V-FRESH™ Universal Air Freshener

V-Fresh™ is a small and versatile solid state air freshener with added malodour eliminating micro porous materials, to combat bad odours.

The integrated suction cup on V-Fresh™ means it can be easily installed onto any hard surface, out of sight from visitors. It can be used in or on the side of toilet bowls, urinals, tiled walls, glass windows and more, and is simple to install and replace.

Choose from five modern and co-ordinated fragrance options.

#### PRODUCT SPECIFICATION

Pack Size	12 x per case

# MVP RANGE

Exclusive co-ordinated "family" of products

The MVP range is a stylish, contemporary and luxurious new range of dispensers designed to complement the most exclusive of washrooms. Fully co-ordinated, the range is available in both a white, translucent or bright chrome finish, made possible by an elegant insert on the front cover.

Currently available in this new range is our: Airoma® MVP dispenser, Micro Airoma® MVP dispenser, Quadrasan® MVP dispenser, Sanitex® MVP surface cleaner, Sanitex® MVP soap dispenser, and the Vibe® aircare dispenser (with piezo technology).

SAVES WATER.  
SAVES MONEY.

# SENSAFLUSH®

## Urinal Flush Management System

Sensaflush® is a unique urinal flush management system designed to drastically reduce water consumption by eliminating unnecessary and expensive wastage.

The Sensaflush® system is incorporated into the water supply to the urinal cistern and controls flush frequency by only allowing flushing when a user is detected.

If detection does not occur within a pre-selected period, Sensaflush® automatically provides a sanitising flush.

### How can I save money by installing a Sensaflush® unit?

With Sensaflush® you have the ability to match your washroom requirements without compromising on the hygiene standards of the facility.

You can actually save up to 90% of water as you are only using water when it is needed – saving the water that would usually be wasted.

	Unmanaged	Urinal with sensaflush®
Litres per hour	60	15***
Hours per day	24	8
Days per week	7	5
Weeks per year	52	52
Litres per year	524,160	38,22
<b>COST PER YEAR</b>	<b>£1189.84**</b>	<b>£148.73</b>

### SAVING OF £1041.11 PER YEAR

\* On a 15 litre tank

\*\* Based on an average UK water cost of £2.27 per m³

\*\*\* This can be reduced further when setting up Sensaflush® unit.

### PRODUCT SPECIFICATION

## CONTINUOUS MAINTENANCE

### QUADRASAN® BREAKDOWN Combination Cleaner

Quadrasan® Breakdown safe combination cleaner will remove both nasty odours and organic staining from a multitude of surfaces in commercial, institutional and domestic environments.

Quadrasan® Breakdown uses safe bacteria to degrade organic waste that may be the source of odours. When activated with water the micro-organisms in this dilutable liquid produce three key enzymes that degrade fats, proteins and starch and are highly effective in removal of oils, grease, food and human waste.

#### QUA-QBD

Quadrasan® Breakdown Combination Cleaner

### QUADRASAN® PURGE Urinal Trap Treatment

When outlet pipes in urinals and shower cubicles block with organic debris it causes the waste to drain away very slowly, which provides the perfect environment for bacteria to breed and cause persistent bad smells.

Cleaning these drains can be a difficult, expensive and time consuming activity. Quadrasan® Purge's powerful formulation breaks down the surface of organic waste before releasing enzymes which eat through the waste, therefore reopening the pipe.

Using Quadrasan® Purge is simple - place the sachet into the affected urinal bowl or shower drain, pour on 500ml of water to dissolve the sachet and leave for 15 minutes.

Rinse away after treatment, you will see immediate improvements.

Pack size: 24 x sachets per case.

#### QUA-QPU

Quadrasan® Purge Urinal Trap Treatment

### PRODUCT SPECIFICATION

Method	Product can be applied using a cloth, mop or trigger spray
Pack size	2 x 5 litres per case (4 trigger spray labels included)
Applications	Urinals, sinks and floors Carpets, fabrics and furniture Sinks and drains Grease traps Tiles and grouting General cleaning and de-odorising

## SKIN AND SURFACE CARE

### SANITEX® MVP Hand & Surface Cleaning Dispenser

The multi-functional and stylish Sanitex® MVP system combines a next generation dispenser design with high quality soap and surface cleaners, promoting good hand and surface hygiene.

Complete with advanced foam, liquid and spray cartridges, the Sanitex® MVP system consists of a range of manual and automatic versions, robust & reliable units that are beautifully simple to operate & service.

Available in: white & white, white & transparent and white & chrome.
